

SRIPAD PRAKASH

SUMMARY

Highly qualified Automation QA Engineer with 5+ years of IT experience, specializing in web testing. A solution-focused, hands-on professional who adapts quickly under pressure, mastering new products and platforms, while effectively collaborating across all professional environments.

EXPERIENCE

Automation Test Engineer

Mphasis Limited | Bangalore | August 2022 - Current

- Worked with Selenium using C#, and transitioned to Playwright with TypeScript, as per the client's preference.
- Effectively utilized GitHub Copilot to accelerate development and quickly deliver high-quality results.

Certified GitHub Copilot License Holder | Talent Next Certified

- Certification achievement at Mphasis, specifying that scored 90% & completed it on October 11, 2024. It emphasizes proficiency in AI- assisted coding and development,

During my experience, I have faced several challenges, including:

- Transitioning from Selenium to Playwright, which required adapting to a new API and programming language.
- Ensuring seamless integration of GitHub Copilot with our existing development workflow.

However, the benefits of using GitHub Copilot have been significant, including:

- Improved development speed and efficiency.
- Enhanced code quality and reliability.

QA Engineer

SAP Labs India | Bangalore | September 2019 - August 2022

- Involved in various phases of testing, including black box, execution, annotation, exploratory, performance, regression, integration, Postman collection, and bug tracking (Jira).
- Developed and executed manual test cases, ensuring quality deliverables.
- Contributed to the design and documentation of test scenarios and test cases.
- Documented findings, tracked bugs, and reported statuses with clear pass/fail results.
- Proficient in using Postman, Swagger API, and pytest for API testing.
- Facilitated continuous improvement projects focused on reducing waste and increasing efficiency.
- Identified and documented any defects found during the course of testing.
