Sachin Kumar

SAP Technical Specialist | Bengaluru

Summary

As a SAP Technical Specialist at Bosch Global Software Technologies, I specialize in bridging the gap between business users and technical teams, translating complex business needs into streamlined solutions. I bring a wealth of expertise in SAP S/4 HANA and ECC Business Suite implementations across both cloud and on-premise environments. My skills encompass a wide range of SAP technologies, including ABAP, Object-Oriented ABAP, and ABAP on HANA. I excel in implementing advanced concepts such as code pushdown, CDS views, annotations, and AMDP, as well as developing OData services, Restful and Cloud programming models, and UI5/FIORI applications. Throughout my career, I've successfully delivered critical projects spanning various functional areas including FI/CO, SD, MM, SCM, and HR. I pride myself on facilitating smooth transitions for end-users, guiding them from legacy systems to cutting-edge business models. Driven by a relentless curiosity, I am always eager to explore and master new technologies and frameworks in my free time.

Experience

SAP Technical Specialist

Robert Bosch Engineering and Business Solutions - Jun 2023 - Present . 2 Yrs 0 Mos.
