# Shriram Gokhale Malya

Performance Engineer

Performance Engineer with 7+ years of experience in Application Performance Engineering and testing for different domains. Excellent knowledge in performance test planning, scenario building, Scripting and Performance analysis.

## Professional Summary

- Strong knowledge on performance testing and performance engineering process and methodologies.

- Expertise in Test Planning, Test Estimation, Test Strategy, Risk Assessment, Work Load design, Test Cases Design, Test Environment Setup, Test Data Setup, Defect Management.

- Worked across various domains like Banking, E-commerce.

- Worked on E2E performance testing cycle which includes requirement gathering, volume analysis, risk assessment, test planning, scenario planning and result analysis and recommendation.

- Adopted **Shift left approach** for early performance analysis and defect tracking.

- Worked closely with dev and architect team to understand the design and provided recommendation based on performance results.

- Worked on both Cloud hosted and server hosted applications.

- Have strong knowledge with different performance testing tools like **Load runner, Jmeter, Neoload**.

- Worked on tools like **Dynatrace, App dynamics, Riverbed, New relic** for debugging and performance engineering.

- Plotted performance test plan and coverage based on the data from **Splunk**.

- Worked on **PaaS hosted apps (PCF)** and worked on PCF dashboard for app monitoring and log analysis.

- Worked with tools like **Wireshark, HTTP debugger** to analyze the request pattern and data flowing through HTTP layer.

- Conducted different kind of test like load testing, stress testing, endurance testing, capacity testing based on the requirement from business and dev team.

- Expertise in identifying the performance issues from client-side using **Lighthouse, dev tools**, **web page test** and providing recommendations to improve the client-side performance.

- Attended **Full stack development** training from Simplilearn. Received certification

## Contact

**Address**
#6, Girija Vinodh, 1st cross, Muneshwara Temple road, Nagashetty Halli, RMV 2nd stage, Bangalore-560093

**Phone**
+91 9900697305

**E-mail**
shriramgokhalem@gmail.com

**LinkedIn**
https://www.linkedin.com/in/shriram-gokhale-malya-9a735492/

## Skills

Performance Testing, Engineering, CICD setup for performance validation using gitlab

## Tools

Load runner
Jmeter, Neoload,
Dynatrace, App
Dynamics, New Relic,
Riverbed, Webpage
test, Catchpoint,
Splunk, Wireshark,
HTTP debugger, Light
House, Gremlin

- Worked on **Chaos testing** using Gremlin tool.
- Experience with tools like TFS, Jira for project management.

## Work History

| | | |
|---|---|---|
| **Oct 2018-** | **Senior Software Engineer**<br>*Dell Technologies* | **Project**: Dell E-Commerce<br>**Role**: Performance Engineer |
| **Aug 2017 -**<br>**Oct 2018** | **Associate Consultant**<br>*Capgemini India Pvt. Ltd* | **Project**: Banking Performance Testing<br>**Role**: Performance Test Engineer |
| **Dec 2014 -**<br>**Aug 2017** | **Test Engineer**<br>*Infosys Ltd.* | **Project**: E-commerce<br>**Role**: Performance Test Engineer |

## Education

| | |
|---|---|
| **2010-2014** | **Bachelor of Engineering (B.E): Electronics and Communication**<br>*Visveswaraya Technological University, Belgaum Karnataka* |

## Languages

Java,Python
SQL Query
launguage

## Certifications

Full Stack developer (Simplilearn)

## Accomplishments

2017-12
**Customer Delight**
(Capgemini India Pvt. Ltd.)
