April 2010 - December 2011 (1 year 9 months)

Distributed Agile Coach at Efuture
September 2011 - September 2011 (1 month)
  We started working on distributed Agile project in which NL part of the team was new to distributed
  Agile concepts. For some people this was first practical introduction to Agile implementation.
  My job was to coach team on Agile concepts and work with Scrum Master and Product Owner
  to resolve any practical implementation issues. We implemented "Virtual One Room" (http://
  sampreshan.svashishtha.com/2011/09/18/distributed-agile-bridging-communication-gap-with-

virtual-one-room/) concept for this project which was very successful. At the end of short stint, team was comfortable on itself to work-out with Agile concepts.

Principal Consultant at Xebia
March 2008 - April 2010 (2 years 2 months)

Solution Architect at CVS Caremark Corporation
