## Experience

Junior DevOps at NC Group Solutions

February 2018 - Present

Intern Software Developer at 1SCOPE

November 2017 - March 2018 (5 months)

Teaching Assistant at Code Camp

July 2017 - December 2017 (6 months)

Salesforce Networking Event at Salesforce

September 2017 - September 2017 (1 month)

Salesforce has provided university grads an opportunity to experience salesforce ohana culture.

It was a 3 days event which helped us to explore more about sales, digital marketing, email marketing etc.

It was a one on one experience with salesforce employees as well as employers about their journey for successful careers.

At the end of the day, we presented about our experience with salesforce, talked about skills and motivation we got.

It was a great exposure! and Salesforce is a great place to work at.

Software Developer at Thermo Fisher Scientific

July 2015 - January 2017 (1 year 7 months)

Worked as a software developer. In my role I gained a lot of experience and proficiency in various domains.

- I gained a professional experience with 1.5 years in Java/J2EE, software development & implementation-solution designing.
- Possessed comprehensive command over RESTful web services.
- Worked on Amazon cloud based application using AWS EC2, Lambda, IAM, Dynamo DB, RDS, SNS, SQS, Simple Workflow, Elastic Cache and Code deploy.

- Sound knowledge of JUnit framework and Mockito.
- Good knowledge of web services automation using SOAP UI.
- Worked on UI/UX and have knowledge of AngularJs 1.x, Bootstrap and Jasmine framework.
- Actively involved in Design, Analysis, Development and Testing of web modules along with hands-on experience in different phases of SDLC using Agile Methodologies.
- Demonstrated team player attributes through fast learning curve, along with analytical, problem solving, planning, organizational, communication & interpersonal skills.

---
