
PROFESSIONAL PROFILE:

Experienced .NET Full Stack Developer with 3+ years of expertise in ASP.NET, ASP.NET MVC, C#, SQL Server, Web Development, Back-End Web Development, Transact-SQL (T-SQL), ASP.NET Web API, C#, Bootstrap, jQuery, .NET Core and micro services architecture, and front-end technologies React. Passionate about delivering efficient and scalable web applications with optimized.

SKILLS**Professional****Programming Languages:**

C#

Web Technologies:

HTML5, JavaScript, jQuery, Ajax

Backend Technologies:

ASP.NET MVC, ASP.NET Core, Web API

Database Management:

SQL Server

Version Control & CI/CD:

Git, CI/CD pipelines

EDUCATION

BE in Electronics and Communication

Vins Christian College

(Anna University)(2007-2010)

CERTIFICATION

Certified .NET Developer

Issuer: Micro1; Date: 26-02-2025

Issuer: Palle Technologies

Date: 30-05-2022

INTERESTS

Meetup Technology Events/Group discussion

Reading Books

Playing cricket

LANGUAGE

Tamil

English

Strong verbal and written communication skills

PASSIONS**Code Community Events**

Regularly attend local coding meetups to share knowledge and continue learning

EXPERIENCE**Dot Net Developer**

RV2KM Technologies | May 2022 –Feb2025

- I am responsible for developing and maintaining software applications using C#, SQL, ASP.NET MVC, Entity Framework, ASP.NET Core, JavaScript, jQuery, and Git. Design, develop, and maintain end-to-end applications for payment systems.
- Expertise in API integration, including RESTful and SOAP APIs
- Enhance front-end functionality, ensuring a great user experience, Thorough understanding of SOLID principles and design patterns, Strong experience with SQL Server, including writing complex queries and optimizing database performance
- Experience with DevOps practices and CI/CD pipelines
- Collaborate with cross-functional teams to drive scalable, high-performing systems innovative financial products like Wallets.

Intern – Palle Technologies

Palle Technologies | Dec-2021 – May 2022

- Gained hands-on experience in Java, SQL, Web Technologies (HTML, CSS, JavaScript), and Visual Studio.
- Worked on live projects, applying object-oriented programming concepts and participating in team-based coding exercises
- Attended regular training sessions on full-stack development, debugging, and deployment practices..

Sales Executive

Self-Business | Sep-2015 - Dec 2021

- Inventory management control for purchase order create.
- Sales entry by using tally ERP 9
- Established and maintained strong relationships with key clients and stakeholders.

Desktop Support Engineer

Micro clinic India Pvt. Ltd | Apr-2011 - May 2014

- Installation of O/S and all application software, installing new hardware, standalone and network printers, scanners etc.
- Microsoft Ad Outlook Migration Using Quest ODM Agency Tool
- FTP Configuration from server to client share folder configuration
- Diagnose and resolve hardware and network connectivity issues
- Assist employees with email, VPN, and application issues.

STRENGTHS

Problem Solving

Quickly identified and fixed a major Software bug that reduced system crashes by 75%

Team Collaboration

Lead a team of 3 in the successful Completion of a complex software project ahead of schedule

PROJECT DETAILS

Project name: BiZview

Technologies Used: Technology: ASP.NET MVC, C#, SQL Server, Entity Framework, jQuery, Bootstrap

Description: Bizview is a comprehensive Customer Relationship Management (CRM) application designed to help businesses manage customer interactions, sales pipelines, and service requests efficiently. It provides modules for lead management, customer tracking, invoicing, and reporting, ensuring better business insights and customer engagement

Roles and Responsibilities:

- The project is about developing a Web application
- I Involved in To Design the application
- I Involved in to develop an application by using frameworkASP.Net MVC

Project name: Medulla

Technologies Used: C#, ASP.NET, Entity Framework, SQL Server, HTML, CSS, JavaScript Framework, jQuery, Bootstrap

Description: Medulla is a specialized application designed for Television Rating Points (TRP) calculation and analytics. It helps media agencies and broadcasters track audience engagement, measure channel performance, and generate insights for advertisement placements. The system processes large volumes of viewership data, applies rating algorithms, and presents detailed reports

Roles and Responsibilities:

- Designed the application architecture using ASP.NET framework, ensuring scalability and maintainability
- Front-end and back-end, ensuring smooth data flow for real-time TRP calculations.

DECLARATION

I hereby declare that all the information furnished above is true to best of my knowledge and belief.
