PROFESSIONAL SUMMARY

Results-driven Azure Developer with 4 years of hands-on experience in designing, developing, and deploying cloud-based applications using Microsoft Azure and .NET technologies. Proficient in building scalable, secure, and high-performance solutions using C#, .NET Framework, .NET Core, ASP.NET Core (MVC), Entity Framework Core, and Web APIs

EXPERIENCE

Infosys Limited - Digital Specialist Engineer

4years

PROJECT

Infosys – Liquid Microsoft

Technologies Used: Azure Data Factory, Azure Function Apps, Azure Storage, Azure Cosmos DB, Azure Data Explorer (KQL), Azure Alerts, Azure Key Vaults and NET

Tools: Visual Studio (2022)

- *Designed and maintained robust data pipelines to automate and optimize data workflows. Developed ETL processes using C# and Azure Data Factory to integrate data from diverse sources into Azure storage, enhancing data quality and accessibility.*
- *Configured and integrated Azure Functions with other Azure services using various triggers (HTTP, timer-based), ensuring efficient data flow and event handling. Upgraded Function Apps from SDK V1 to V4, reducing pipeline execution time from 23 hours to 18 hours.*
- *Designed and developed scalable web applications using ASP.NET Core, MVC, and Web API to meet business requirements and improve performance.*
- *Automated Function App deployments using Infrastructure as Code (IaC) with Bicep, significantly reducing manual intervention and improving deployment consistency.*
- *Actively contributed to Agile processes, participating in sprint planning and daily standups.*
