

# SNEHA MAINKAR

SOFTWARE ENGINEER

+919850740526 | snehamainkar11@gmail.com | [LinkedIn](#)

## CAREER SUMMARY

Dynamic **.NET Developer** with 4 years of experience in building scalable web and desktop applications. Proficient in **C#, ASP.NET, MVC**, and **Agile** methodologies, ensuring high-quality code through unit testing and reviews. Strong collaborator in cross-functional teams, driving efficiency and continuous improvement.

## TECHNICAL SKILLS

- **Backend Technologies:** C#, ASP.NET MVC, Web Forms, .NET Core, Web API
- **Frontend Technologies:** JavaScript, jQuery, Angular
- **Databases/Framework:** SQL Server, MongoDB, Entity Framework
- **Cloud & DevOps:** Azure Deployment
- **Development Practices:** Agile/Scrum, Unit Testing, Code Reviews

## EXPERIENCE

SOFTWARE ENGINEER - KANAKA SOFTWARE

May 2021- Present

- **ASP.NET MVC:** Enhanced the user experience by optimizing ASP.NET MVC views and controllers, resulting in a more responsive and intuitive interface, improving customer satisfaction and engagement.
- Actively participated in Agile development cycles, working closely with cross-functional teams to implement new features and ensure adherence to best practices in ASP.NET MVC and Web Forms development, consistently meeting project deadlines.
- Conducted unit testing and code reviews for both ASP.NET MVC and Web Forms applications, ensuring high-quality software, reducing defects, and improving maintainability and performance.
- Deployed applications to Azure, ensuring high availability and security compliance.

## PROJECTS

ENCORE – ELECTRONICS MEASURES

**Tech Stack:** C#, ASP.NET MVC, SQL Server, MongoDB, JavaScript, jQuery, Azure

**Duration:** 2022-Present

- Developed and maintained healthcare domain projects for US-based clients, ensuring compliance with CMS (Centers for Medicare and Medicaid Services) standards.
- Developed and maintained **ASP.NET MVC** applications, improving performance and user experience.
- Designed and optimized **MongoDB** queries for high-efficiency data management.

RAPID

**Tech Stack:** C#, Web Forms, SQL Server, JavaScript, jQuery

**Duration:** 2021-2022

- Developed and maintained a legacy healthcare management system for a US-based healthcare provider.
- Implemented **C# backend logic**, ensuring scalable and robust application architecture.
- Provided maintenance and support, troubleshooting issues and implemented enhancements
- UI Enhancements: Improved **Web Forms UI** with Bootstrap and **DevExpress** controls.

## EDUCATION

MCA | Pimpri Chinchwad College of Engineering, Pune | 9.26/10

2018 – 2021

BSC CS | Kankavli College Kankavli | O Grade | 85.13%

2014 – 2017

## CERTIFICATION

AWS Cloud Practitioner Essential | [ASP.NET](#) Core Web API by Udemy | SQL for Data science by Coursera
