Cisco Certified InternetWork Expert (Routing and Switching)

Aruba Certified Mobility Associate

JNCIS-ENT (Juniper Networks Certified Internet Specialist - Enterprise Routing and Switching)

Mohammad Majba Uddin

Senior Network Consultant | CCIE#52476 | Data Centre and R&S |
Cisco ACI Solution Designer | Cloud Network Solution Architect
Canberra, Australia

Summary

- CCIE Data Centre (#52476) certified experienced Network Engineer.
- CCIE Routing and Switching (Written) qualified.
- Cisco ACI Design and Implementation Specialist.
- AWS Certified Solution Architect (Associate).
- Experienced Data Centre Engineer.
- Suitable to work on projects that require Security Clearance.
- Security administration through Checkpoint , Cisco ASA firewall.
- Design, Implementation and Operation of Data network in customer environment through Cisco, HP and Juniper Network Equipment.

Specialties:

Vendor Certification:

CCIE Certified in Data Centre

CCIE R&S (Written)

AWS Certified Solution Architect (Associate)

CCNP Routing and Switching (Cisco Certified Network Professional)

JNCIS-ENT (Juniper Networks Certified Internet Specialist - Enterprise Routing and Switching)

CCSA (Checkpoint Certified Security Administrator)

CCNA (Cisco Certified Network Associate)

JNCIA-Junos (Juniper Networks Certified Internet Associate - Junos)

OCSA (ORACLE Certified Solaris System Admin)

ORACLE Certified SQL Expert

Technical Abilities:

-Routers: Cisco ASR 9K, 1K, 7200, ISR4K, 2900, 2800, 1900,
Juniper J2320, 2350, Olive; HP 6600, Huawei

NE series

-Switches: Cisco Nexus 9K, 7K, 5K, FEX, Catalyst 6500, 9300, 9500,
3850, 3650, 3750, 2960 etc.

HP Comware 5300, 5800, 5900, 10000, Aruba 5400, Juniper Junos.

- Firewalls: Checkpoint, Cisco ASA
- Wireless Controller - Cisco WLC and Juniper WLC
- Cisco ISE
- Load Balancer: F5
- Riverbed WAN Accelerator
- Unix servers : Sun Fire 480R, E2900; Sun Fire V440, Sun Enterprise 150 and 4800;
- blade servers:Sun Blade 1500
- Enterprise T2000, Netra T5220, Sun Ultra 45 Workstation.
- Windows Server 2008

Experience

IP Australia

Senior Network Consultant

October 2018 - Present

Canberra, Australia

Dimension Data

Senior Network Engineer

October 2018 - July 2019 (10 months)

Canberra, Australia

NEC Australia

Senior Network Engineer

October 2014 - October 2018 (4 years 1 month)

Adelaide, Australia

Telstra

Technical Expert, L3 Assurance

October 2012 - September 2014 (2 years)

- o Design low level firewall change in customer (Origin Energy) network in checkpoint environment.
- o Security administration of the customer (Origin Energy) network for the internal change request of Origin and HP.
- o Implement firewall rules as per generated plan.
- o Participating in various projects as a firewall administrator.
- o Provide second and third level support for all service assurance incidents providing linkages into Suppliers, Vendors and other support groups to expedite fault repair within SLA targets.

- o Perform or participate in complex, specialized technical investigations to determine/confirm system and design standards and performance parameters for the networks, infrastructure, products and services supplied and operated by Telstra.
- o Work closely with Major Incident Management in the coordination of major network and customer impacting events.
- o Assist in the resolution of assurance issues in jeopardy of missing service level agreement targets.
- o Provide level 2/3 Service Assurance of the other Origin specific infrastructure including Cisco Routers and Switches, F5 Load Balancers and Riverbed WAN Acceleration Devices.
- o Analyze, diagnose, and restore specialized complex Origin networks and services to maintain availability.
- o Provide consultancy and/or technical advice at relevant product implementation and operational forums, or fault escalation forums.
- o Develop, modify and implement technical instruction packages/work instructions.
- o Contribute to ongoing improvements by providing feedback on faults and processes.
- o Manage difficult customer enquiries, customer escalations, and process issues promptly and efficiently and to the customer's satisfaction

Grameenphone Ltd. (Telecom Norway Bangladesh Operation)
 Senior System Engineer, Back Office, Core and Service Systems
 February 2007 - July 2012 (5 years 6 months)
 Dhaka, Bangladesh
